## VOCATIONAL PATHWAYS

### WHAT ARE VOCATIONAL PATHWAYS?

There are six industry specific Vocational Pathways:

- Primary Industries
- Services Industries
- Social and Community Services
- Manufacturing and Technology
- Construction and Infrastructure
- Creative Industries

These six pathways represent ways a student can structure NCEA to allow them to staircase into a chosen industry.

For example, a student wanting to become a Builder would align their NCEA studies and training with the Construction and Infrastructure Pathway.

### What is Industry Specific Training?

At Vertical Horizonz we work with schools and students to deliver Industrial Safety, Health and Safety, First Aid, and Leadership training as part of our Youth and Career training. These industry specific courses align with Vocational Pathways and provide students with real life industry skills.

### VHNZ PATHWAYS

Vertical Horizonz's mission is to provide real training that saves and changes lives. We believe that best practice begins in the classroom and are proud to offer a holistic employability pathway that supports the journey of rangatahi all the way through to becoming members of a safety conscious, skilled and resilient future workforce. Following their chosen path to early employment, we offer learners a range of TEC funded programmes (including pre-trade) to boost their skill set and widen their horizons. VHNZ also supports apprenticeship training in a number of our areas of expertise.
